

**PROPERTY TAX APPEAL BOARD'S DECISION**

APPELLANT: Pin Hwang  
DOCKET NO.: 03-29550.001-R-1  
PARCEL NO.: 17-03-109-013-0000  
TOWNSHIP: North

The parties of record before the Property Tax Appeal Board are Pin Hwang, the appellant, by attorney Patrick J. Cullerton of Thompson Coburn Fagel Haber, and the Cook County Board of Review.

The subject property consists of a 110-year-old, three-story, multi-family dwelling of masonry construction containing 4,980 square feet of living area and located in North Township, Cook County. Features of the building include three and one-half bathrooms, a full-unfinished basement, air-conditioning a fireplace and a one-car detached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on nine properties suggested as comparable to the subject. The appellant also submitted a two-page brief as well as photographs and Cook County Assessor's Internet Database sheets for the subject and the suggested comparables. Based on the appellant's documents, the nine suggested comparables consist of three-story, multi-family dwellings of masonry construction with the same neighborhood code as the subject. The improvements range in size from 4,152 to 5,664 square feet of living area and range in age from 90 to 114 years. The comparables contain from three to six full bathrooms and a finished or unfinished basement. One comparable contains air-conditioning, four comparables have multiple fireplaces and three comparables contain a two-car garage. The improvement assessments range from \$16.67 to \$22.54 per square foot of living area. Based on the evidence submitted, the appellant requested a total assessment of \$126,072, with an improvement assessment of

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 32,448  
IMPR.: \$ 112,249  
TOTAL: \$ 144,697

Subject only to the State multiplier as applicable.

\$93,624 or \$18.80 per square foot of living area and a land assessment to remain unchanged at \$32,448.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$155,135. The subject's improvement assessment is \$122,687 or \$24.64 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on four properties suggested as comparable to the subject. The suggested comparables are improved with two-story or three-story, multi-family buildings of masonry construction located within the same survey block as the subject. One comparable is located on the same street as the subject. The improvements range in size from 2,808 to 4,472 square feet of living area and range in age from 115 to 125 years. The comparables contain four, five or five and one-half bathrooms and a full-finished or unfinished basement. One comparable has air-conditioning as well as four fireplaces. The improvement assessments range from \$24.75 to \$33.19 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

The Board finds the appellant's comparables to be the most similar properties to the subject in the record. These nine properties are the most similar overall to the subject in improvement size, design, age and location and have improvement assessments ranging from \$16.67 to \$22.54 per square foot of living area. The subject's per square foot improvement assessment of \$24.64 falls above the range established by these properties. The Board finds the board of review's comparables less similar overall to the subject in improvement size and/or design. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is not supported by the most similar properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
